

Taste The  
Ayrshire Tradition!

# Contents

# About Us

## OUR HISTORY

For five generations, the Robertson family has produced exceptional Scottish pork, upholding Ayrshire traditions. Starting as ham curers, we gained regional fame and expanded to six butcher shops. Today, we remain a leading supplier to butchers across Scotland, known for our delicious bacon and sausages, and continuing our legacy of quality and family recipes.

Since 1870, we've used only the finest Scottish pigs, born and reared in Scotland, and hand-selected for us by the same farming families for over 100 years. As the sole remaining producer of genuine Ayrshire bacon in the region, we honour our heritage of craft butchery and traditional recipes.

## QUALITY ASSURANCE

Robertsons commitment to sustainability, traceability, and provenance sees us proudly display the Specially Selected Pork logo. This guarantees that our pork is 100% Scottish and raised with animal welfare at its core.

In the same way, all product carrying the Scotch Beef logo certifies that the product has met Quality Meat Scotland's animal welfare and processing requirements from birth.

We also have a range of products registered under the Red Tractor quality assurance scheme. For further information on our quality assurance partnerships and capabilities, please speak with our sales team.

## OUR RANGE

Robertson's Fine Foods production facilities are located in Irvine. Our family recipes, combined with modern methods, ensure the best-tasting products. Our smoked meats are prepared in our own smoke house, and our sausages use whole cuts of pork for superior texture and flavour.

## OUR PARTNERS

Quality Meat Scotland, our key partner, guarantees our products are 100% Scottish from field to fork and promotes Scottish red meat to businesses and consumers.

Scottish Craft Butchers, of which we are proud corporate members, are the beating heart of the Scottish independent butchery trade, representing it's members since 1918.

## OUR CUSTOMERS

Robertson's, Scotland's leading 100% Scottish pork producer, supplies quality meat to butchers, restaurants, delicatessens, and grocers, emphasizing quality, provenance, and traceability.

In 2022 Robertsons was acquired by Browns Food Group, one of the UK's leading food producers, and has seen an increased market presence thanks to the partnership.
